Aishwary Sharma 2020490

Rohan Kulkarni 2020537

Antonio Pedro 2020028

Lokesh 2020077

Problem Statement :

Priya is a housewife who loves to cook and whose dream is to open her own restaurant but she doesn't have enough money and popularity to do so. She wants to start cooking professionally in a way that can help her to gain the experience and money required to fulfill her dream of opening her own restaurant.

Design a workflow for completing an order delivery.
